

Scrap Dance Two Step Mystery Quilt Along

March 2017

From My
Carolina Home

Step One - Match the 5" background squares with an equal number of 5-inch scrap squares for your chosen size. Draw lines on the back of the lighter square on the diagonal, either one in the center (and sew 1/4-inch away on both sides), or this way - two sewing lines 1/4-inch away from the center. I have found it easier to stay accurate with this method.

Now let's Two-Step! Take the remaining 5" color scraps, make two color HSTs pairing up colors to have some contrast in color or value.

Square the HST units to 4-1/2 inches.

See you in April!
