

*Scrap Dance Mystery Two Step
June Instructions
From My Carolina Home*

With the bar units you have left, match one with two scrappy/background HSTs to make this unit. Be very sure that the background HSTs point to the ends and up with the background bar on bottom.

One hint, at this point, you are down to the last bits to assemble. Lay them out in overlapping rows to be sure the remaining scrappy prints are distributed.

Now, let's Two-Step! Here is the block you'll make with these units. Note that half the HST/bar units go on the top, and the other half will be turned around and on the bottom. The final block will have all four corner background HSTs pointing to the outside corners as shown here.

Again, a hint - lay out all of them at once to be sure that the prints are distributed as best as they can be. Press seams all in one direction.

Have fun!! We will use that additional background fabric and scraps next month. Upload your progress on Flickr, we love to see the shares!!
