

Scrap Dance Pachanga
2021 Scrap Dance Mystery
From My Carolina Home

This pattern will look great with a wide variety of scraps and a consistent background, but would also look wonderful in scraps of all one color family (like all reds or blues) with a high contrast background like a bright white, or soft cream. You might choose a variety of medium dark prints and a light white or cream background. It would do very well with darker backgrounds and lighter scraps. If you've ever wanted a navy and cheddar quilt, this is the one! If you've always wanted a black background quilt with bright scraps, now is the time. I think it would do very well with red and blue scraps on a white or cream background for a Quilt of Valor. I'll be sewing my project with black background and vibrant brights.
