

Autumn Jubilee Quilt Along 2023
FromMyCarolinaHome.com
Assembly and Quilting

Arrange your blocks in the configuration below, except switch the pumpkin blocks so you don't have the geese coming off a pumpkin stem like I did. Note that the flying geese blocks point different ways with the leaves on different sides. This creates movement in the quilt top design. I assembled mine using the [Web Method](#) I've shown before.

If you making more blocks for a larger quilt, lay them out and take a photo so you can see where there might be better color distribution or lines you wish to avoid.

Quilt as desired.

Bind as usual.

Make a nice label!
